Greeting Calvin

I am Alfrieda Peters with Yakama Nation Solid Waste Program. Currently Derald Ortloff is overseeing the program in the interim period.

I am following up on his request. What is EPA's position on notification of the neighbors of Gaytan during EPA testing on the potential ACM debris? As we have a listing of 96 individuals that live within a mile of Gaytan's resident, will EPA be notifying the neighbors? Mr. Ortloff want to know what is Cliff's position on this?

Plus, do you want Yakama Nation's to assist on the notification of EPA's Action on Ashue Road Asbestos Site that will be taking place on Monday August 12?

~Alfrieda Peters
